All,

EPA's testimony and NOAA's framework for its testimony are attached for your review.

Phil Roni and I will be testifying at the June BOF meeting in Salem. We hope to present jointly with Phil leading off focused on a few key science issues, followed by EPA's statement. EPA's testimony is essentially the same as the one we prepared (but didn't deliver) for the April BOF meeting. It links well with Phil's framework.

We would like to get your comments by COB Thursday so we have time to make changes, if needed.

Please send your comments to both Phil and me. Feel free to give me a call if you have any questions.

Alan
